

Lithofin EASY-CARE

Description

Lithofin EASY-CARE is a high-yielding cleaning and maintenance concentrate, which contains active maintenance components and mildly alkaline cleaning agents based on natural soaps.

Technical Data:

Density: 1.0 g/cm³

pH-Value: approx. 10 (concentrate)

Appearance: viscous, yellowish

Odour: pleasant

Flash Point: n.a.

Solubility in Water: complete

Properties

Lithofin EASY-CARE contains agents that take up the dirt and make them easy to remove by wiping. The remaining extremely thin care film is free of wax and does not build any layers. With continued use, the surface's appearance will improve in colour and structure. Lithofin EASY-CARE leaves a pleasant odour.

Field of Use

For regular maintenance cleaning of all marble and natural stone surfaces.

Surfaces: all natural stones such as carrara, travertine, jura marble, porphy, serizzo, sandstone as well as engineered stone. Unglazed ceramics, terracotta, quarry tiles, wood and plastics, etc.

Directions for Use

Lithofin EASY-CARE is added to lukewarm water. Add a small amount (approx. 20ml) per 10 litres of water. In case of absorbent, dirty surfaces use a bit more.

After wiping, allow the residues to dry on the surface, do not rinse with clear water. Use either a floor mop, cloth or cleaning machine for wiping.

Coverage: Lithofin EASY-CARE is a high-yielding concentrate and very economical. On large areas which are machine cleaned daily approx. 3 litres per 100m² will be needed per month.

Advice: in areas subject to heavy wear and tear and on very dirty surfaces, it may be necessary to occasionally use Lithofin WEXA or Lithofin MN Power-Clean.

Storage

Keep closed and cool. Not above 25°C.
Shelf life of up to 5 years.

Environmental Protection

The contained surfactants are biologically degradable according to EU-regulations. Does not contain any phosphates.

Disposal: diluted product may be added to waste water. Containers are made of environmentally friendly polyethylene (PE). Clean containers can be recycled through collection system.

Safety

Ingredients: natural soaps, 5-15% anionic, <5% non ionic surfactants, scent (limonene, geraniol), auxilliary agents.

Labelling according to EU-Directive 1272/2008(CLP):
GHS Symbol 07, Warning
Contains benzenesulfonic acid. Concentrated product causes serious eye damage. Keep out of reach of children. Wear protective gloves/eye protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

ADR 2015: labelling for transport		
Unit	Label	Notes on freight papers
a) b)	--	none

Packaging

- a) 1 litre bottle with child-proof cap (10 per box)
- b) 5 litre canister (2 per box)

Please Note: statements concerning environmental and safety issues refer to the product as delivered (concentrated). This information should be considered to be informal and non-binding. The products must be used according to local conditions and materials. Always test the product in an inconspicuous area. (GB8.15gps/6.15)
